

# Beautiful Displays and THE Fabric FACTORY™

## Capabilities Information Sheet

Beautiful Displays and The Fabric FACTORY™ offers full-service large-format and grand-format printing for promotions, signage, events, exhibits & displays, retail & P.O.P., interior decor, architectural installations and more. As a Nimlok® Authorized Distributor for more than 15 years, we also produce custom exhibits and stock displays of all kinds for events, retail, trade shows, museums, industry, institutions, and more.

### In-House Print & Finish Capabilities

#### Fabric Printing (Dye-Sublimation)

We operate state-of-the-art, high-resolution dye-sublimation printing equipment that produces incredible color 'pop', beautiful skin tones, accurate spot colors, and rich blacks on a large variety of fabrics, flooring and other substrates. Dye-sub printing offers vivid color, superb resolution, and excellent durability.

#### Fabric Finishing

Specialized cutting, sewing and finishing equipment creates perfect edges, hems, and stitches for beautiful and durable finished products. CNC laser and knife cutting of fabrics allows repeatable mass production of printed fabrics for large promotional efforts and OEM uses.

#### Custom Printed Fabric Uses

Exhibit & Display Graphics, Event Graphics, Arena Graphics, Backdrops, Banners, Draperies, Tablecovers, Pop-Up Display Skins, Tension Fabric Graphics, Backlit Graphics, Architectural, Retail Promotion... and hundreds of others.

#### Display-Quality UV Flatbed Printing

We offer state-of-the-art UV curable flatbed and roll-to-roll printing with spectacular color and resolution on virtually any flat surface or substrate -- the possibilities are endless! Print single or double-sided on just about anything flat, up to 5' x 10' in size and up to 4" thick, or on rolls of vinyl and other graphic substrates.

#### UV Flatbed Printing Capabilities

- High resolution close-up viewing display-quality prints
- Available in sizes up to 60" x 120", single or double-sided
- Print on any rigid or flexible sign substrate available
- Print exotic materials for unique creative solutions
- Full Color Printing plus White Ink available

#### Common UV Curable Printing Materials & Uses:

Sintra, Acrylic, Gatorboard, Cardboard, Foamboard, Styrene, Wood, Paper, PVC, Coroplast, Dibond, Metal, Wallpaper, and more for a huge range of applications including signs & signage, exhibits, promotional graphics, backlits, flooring, architectural, interior design and just about anything else you can dream up!

#### Display-Quality Grand-Format Printing

In addition to dye-sublimation and UV printing, we also offer large-format printing with latex inks and eco-solvent inks on a variety of materials. We regularly calibrate our large-format print processes to offer consistently vivid colors, natural skin tones, accurate spot colors, and rich blacks on a variety of substrates.

#### Lamination Services

Top-quality laminates provide extended durability, low glare, and a high-end professional appearance to UV, solvent and latex prints of all kinds.

#### CNC Custom Shaping

Custom shaped graphics are easily produced with our state-of-the-art CNC conveyor table. Featuring a laser cutter, high-speed router and several knife cutting and scoring tools, our CNC table is capable of shaping just about any material into any custom shape desired.

### Exhibit Design & Exhibit Products

Beautiful Displays offers a complete range of display, exhibit and event hardware to complement our in-house printing capabilities. We produce several of our own branded products in addition to offering some of the most trusted exhibit hardware brands in the business.

#### General Exhibit Product Categories

We offer a complete range of solutions for exhibits, events, installations and more -- Fabric Displays, Custom Displays, Banner Stands, Truss Exhibits, Backdrops & Backgrounds, Hanging Fabric Signs, Flooring, Cases & Crates, Portable Counters, Outdoor Displays, Tablecovers, Pipe & Drape Systems, and more.

### Graphic Design Services

We have a dedicated staff of design professionals with extensive experience designing large format exhibit graphics and printed materials of all kinds. We quote our graphic design services on a per-project basis (rather than by the hour) to eliminate surprises and help you keep your budgeting on target.

#### Pre-Press and Project Management

Our pre-press and printing department uses a fully color-managed workflow, employing the most modern software and hardware tools to assure accurate color results. To assist you every step of the way, you'll have a dedicated project manager who knows all the details of your project from beginning to end.

**Please contact one of our professional sales consultants at 800.697.4670 or email [info@beautifuldisplays.com](mailto:info@beautifuldisplays.com) to discuss your next project and receive a competitive price quote.**
